

We want to bring full fibre to Donhead St Andrew.

Everyone deserves fast, reliable internet. That's why we're building a full fibre network to the most remote communities.

Local and independent.

Our fully independent network means we are committed to serving our local communities.

Friendly support.

It's good to know that if you need us, you'll be put straight through to a helpful voice, live from our HQ in Dorset.

Future proof.

As we start to use more data than ever, full fibre has the capability to meet our needs for decades to come.

Lightening fast broadband.

Up to 11x faster than the UK's average broadband speed.
