**Our ref:** 6457

**Your ref:** Thrupton Neighbourhood Plan

**Date:** 10 October 2016

Dear Ms Phillipson,

**RE: ECOLOGICAL DATA SEARCH: THRUPTON PARISH**

Thank you for filling in our online form on 12 September 2016 expressing your interest in the above data search. Please find attached:

1. A map showing Sites of Importance for Nature Conservation (SINCs) and sites that appear on the Hampshire Ancient Woodland Inventory within Thrupton Parish. There are no Statutory designated sites within Thrupton Parish.
2. A table listing the SINCs within Thrupton Parish and their qualifying criteria.
3. A table detailing any protected and notable species currently on the HBIC database found within the vicinity of Thrupton Parish, please contact HBIC if further details are required for any of these records. Please note that quantities of '0' (zero) indicate that the species was 'present' but the number of individuals seen was not recorded.
4. A table detailing any invasive species currently on the HBIC database found within the vicinity of Thrupton Parish. Please note that quantities of '0' (zero) indicate that the species was 'present' but the number of individuals seen was not recorded.
5. A map showing Priority Habitat information within Thrupton Parish. Click here for the [legend](#)

Please note the following points:

- If you have problems viewing any of the links in this document please connect to the internet and try again. If this doesn't work please get in touch and we will email you the supporting documents you need.
- The attached maps contain some areas with no designation. This may be due to the fact that we currently do not hold any ecological survey information on these areas of land. It should not be taken to mean that there is no ecological interest present.

- The boundaries for statutory sites have been provided to HBIC, by Natural England (NE), as digital data. The digital data is indicative not definitive. Paper maps produced by NE at the time the sites were designated show the official site boundaries.
- To view the designation criteria for Sites of Importance for Nature Conservation in Hampshire please follow this link: [Criteria for SINCs in Hampshire](#)
- HBIC do not currently hold species information for certain taxonomic groups. The main datasets which have been included are listed at the top of any species list provided. If you need to confirm how comprehensive the provided records are, please contact HBIC. Details of contacts who may be able to assist you in providing other relevant information for Hampshire can be found here: [Hampshire County Recorders list](#)
- The Hampshire Inventory of Ancient Woodland is a provisional inventory that was published in 1995 by Hampshire County Council on behalf of English Nature (as Natural England were previously known). Sites that appear on the Inventory are over 2 hectares and include ancient semi-natural woodland and ancient replanted woodland.
- The location of species records are based on [Ordnance Survey National Grid References](#), click here to view an explanatory note on this system.
- The data supplied to you is subject to our [Data Users Declaration](#) (click to view) which you read and agreed to when you submitted your data request form.
- Our [Hampshire County Recorders](#) (click here to view details) would be very grateful for copies of any species records you make in Hampshire, just add your sightings directly onto Living record [www.Livingrecord.net](http://www.Livingrecord.net) where they will be picked up.
- The [caveats and statuses of each Priority Habitat](#) can be viewed by clicking on this link.
