Do you or any of your household use a bus service that stops at the top of School Lane (school bus or Number 11 bus)?

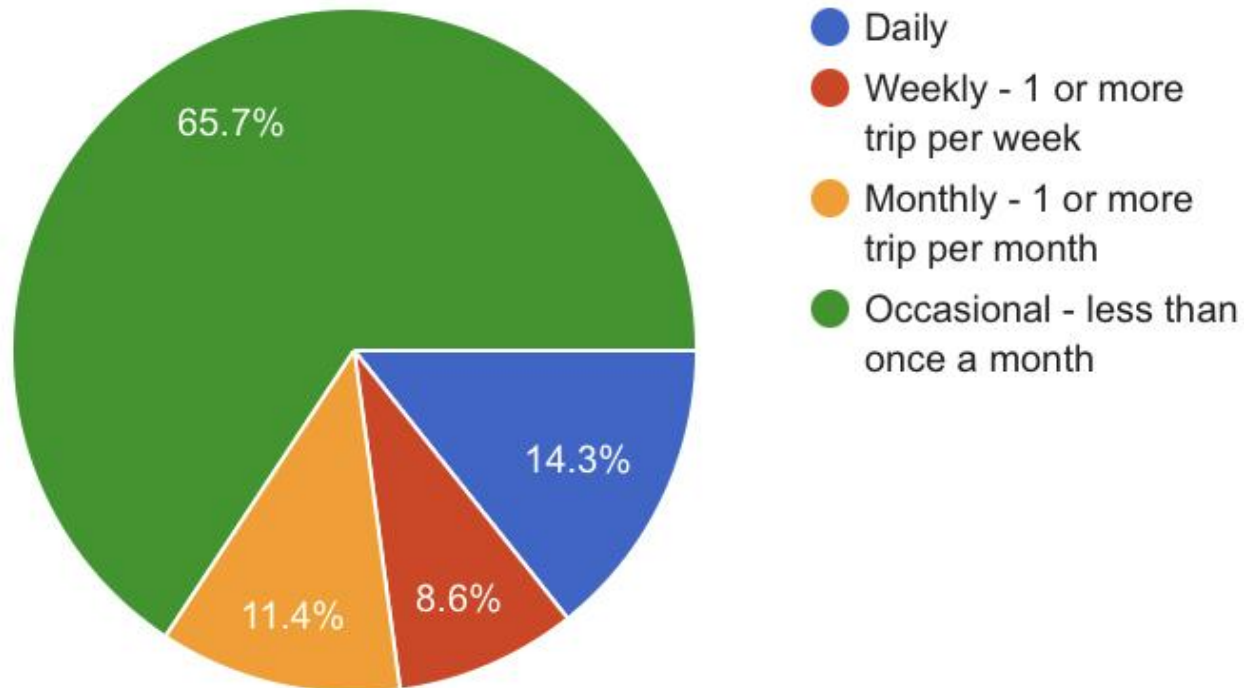

35 responses

How often do you or other adults in your household catch a bus from the top of School Lane?

The Parish Council is considering installing a Bus Shelter with seating for waiting passengers, see photo of a proposed design. The placement of the shelter would not impede line of sight when turning right out of School Lane. Would you be in favour of a shelter similar to the one shown?

The triangle at the top of School Lane is in a poor state of repair, the old concrete bench is broken, the grass damaged by vehicle traffic, would you support a scheme - in addition to the proposed bus shelter - to improve the aesthetics: the removal of the broken concrete bench, new planters in place, repair of the grass and replacement of the bin?

In addition to the above, one option we are considering is installing (replacing, there used to be one there) a vintage red phone box with shelves for a book exchange library, similar to that in the photo. Would you support this?
