Status (eg private, charity)	Members Controlled Society
Address	17 Huntley Down Milborne St Andrew DT11 0LN
Contact Person	Brian Keene
Position in organisation	Secretary
Email Address	Bkeene999@icoud.com
Tel:	Mobile:07860 615545

The Project

Please describe the project in detail, and its purpose/objectives. Please attach any relevant documents

The Society was formed 10 years ago to create an allotment facility for the villagers of Milborne St Andrew. The land is leased from the Parish Council and when handed over to the Society was uncultivated and neglected for many years. The new committee successfully raised funds to prepare the ground, provided deer and rabbit fencing, a water supply and created plots for up to 24 allotment holders.

With the new housing developments in the village, there will be additional pressure for an allotment plot. As is common with modern high-density housing, the new properties in the village have very small gardens providing little or no space for growing vegetables. The Society currently has a waiting list of eight local villagers wanting an allotment. This will undoubtedly increase when the new housing is completed and we receive additional requests for allotments.

However, after 10 years, the integrity of the site fencing and gates have deteriorated allowing ingress by rabbits and other animals causing damage to plot holders produce. The damage can be soul destroying to the plot holders concerned.

Funding is required to restore the security of the external fencing and gates. It is vital that the current infrastructure is in good order to welcome the new applicants.

The Society has been advised by the contractors undertaking the fencing installation that it would greatly improve the longevity of this fencing if gravel boards were installed at the same time.

Status of Project

Is the proposed project:

- (i) Identified within the local plan? Yes _____ No _____
- (ii) Endorsed by the respective Town/ Parish Council? Yes _____ No _____
- (iii) Was the necessary planning authorisation received? Yes N/A ___ No _____
- (iv) Is the organisation proposing the project properly constituted? Yes ___ No ___

Detail of endorsement & planning authorisation

Project Funding

Source of Funding	£	Status
Total Project Cost	1280	Please provide evidence of cost
S106 Funds Requested	1280	
Additional Funding Required		
Source of Additional Funding	£	Secured/under consideration etc.

Timescales

<p>Anticipated start date: As soon as funds available</p> <p>Anticipated completion date: Within one month of commencement</p>

Delivering the Project

Who will manage the delivery of the project?
The Society Committee

Please confirm that you have/will have the relevant insurance in place to deliver this project.
Confirmed

Viability & Management of the Project

Is the project financially viable in the long term?
Allotment tenants pay annual fees to cover minor maintenance and water supply costs. Most years there is a small surplus which is retained in the Society bank account

How will the facility/infrastructure be managed and maintained in the long term & by whom?
The Society Committee

Who will Benefit?

How many citizens (age, gender etc.) will benefit from the proposed project?
What other outcomes do you want to achieve?
There are currently 17 plot-holders. 6 plots are leased by retired families with the oldest tenant being over 80 years old. A further 3 plots are leased to families with young children. The population of the village is increasing because of the 2 new developments. As is common with modern housing planning, these new properties have very small gardens. We therefore anticipate an increase in our waiting list and would like to increase the overall size of the allotment site in the future to accommodate more village allotment holders.

Monitoring & Evaluation

How will the project be monitored and evaluated?

The project is designed to provide a safe and secure allotment site for villagers to grow their own fruit and vegetables. Full membership and a growing waiting list will demonstrate a successful project and this will be monitored by the Society committee.

Consultation

Was the respective community consulted on the design and scope of the facility being proposed? If so, when and how, and what was the outcome? What other organisations have been consulted, e.g. Town & Parish Councils, Community Partnerships.

Yes, with the Parish Council on several occasions during the summer of 2022 when it became apparent that funds might be available for the Society.

Sustainability

How does your project contribute to sustainability (see Appendix 1, Guidance Notes)

The allotment gardens are a fundamental part of the UK gardening culture and are an important feature within a local community

Economical: Enabling users to consume more fresh vegetables and fruit on a limited budget

Social: Allotments create a social network which reinforces a sense of community

Ecological: Creating valuable habitats for beneficial wildlife which assist sustainable culture

Declaration

I confirm that

1. approval was granted for me to make this request on behalf of the institution/organisation presenting this application.
2. implementation of this project is within the scope of the constitution or the memorandum & articles of this institution/organisation.

3. information presented above is true and correct.
