Awful foul smell emanating from Tunnel Tech this morning and also yesterday 9th October 2019. Even the delivery man commented on the stench.Has Tunnel Tech given up making any effort to control this problem?

I have to tell you that yesterday,&today, they have been sending out a really bad sulphurous smell.

Both days have been bad on the road past their site. Could it be due to the rain we have had,&their top water

Monday 21 Oct - the most vile disgusting TT stench early evening & still around at 9.30pm when walking home from a local event, the stink knocked us out & we had to cover our faces to be able to breathe - I can't believe we have to live like this.

On the above date at around 9.25pm we were walking home and were met by the most horrendous stink from Tunnel Tech North. I am asthmatic and had a severe attack whilst walking home and was unable to get my breath because of the pollution

I would like you to log that at 7am on Tuesday 22nd October 2019 there was a really strong odour from the mushroom farm. It had cleared from garden by 9am but the inside of my house is another story ?

The smell from TT as you drive from Misson is absolutely vile this morning, really sour. By the way you may be interested to hear we followed a double trailer of "feedstock" a few weeks ago, that turned into TT.

Wednesday 23 Oct - went outside at 7am to the most horrendous TT stink, which is still around.
