Details

Tues 1st June - the usual vile TT stench driving past site 3pm & still stinking to after 6pm.

4.24pm road into the village

5.15pm outside his house.

Vile smell from Tunnel Tech permeated the house this evening from 18.45. Scale 8 out of 10.

Tunnel Tech was also smelling very badly when I drove past today at 11.30. Really nasty smell. We've experienced very bad smells from Tunnel Tech regularly

pungent stench emanating from TTN returned for most of yesterday and continued late into the evening. I would rate the strength as 8 / 10.

Monday 7th June - vile TT stench driving past site 10.30am, still stinking after 1pm - then intermittent till around 4.30pm in village, still a vile stink to well after 7.30pm.

afternoon 6/10 but in evening was 10/10 whilst sitting outside a local pub, smelled like rotting flesh

I'd like to register a complaint about Tunnel Tech odour 8th June at 20:17 & again yesterday around the same time. I was unable to sit outside at my home and enjoy a nice sunny evening due to the offensive smell.

still stinking at 04.50 this morning!! Wanted some fresh air as the window was closed all night. Impossible

Stench from TTN past two days has been disgusting & totally unacceptable. Why are our concerns not being addressed by BDC ?

10.25am, 12.57pm - on road into village

5.50pm, 6.40pm, 9.35pm onwards on and off all day outside his house.

Wed 9th June - 10am horrendous TT stink from Misson Mills area to Newington, still a stench at 3pm driving past site & into Misson.

2nd complaint: Still a vile stink in Manor Close up to 6.20pm whilst trying to enjoy dining outside... what a joke!

I would like a response please from BDC to at least say complaints have been received.

3rd complaint for Wed 9th June - the most vile TT stink has continued to get worse during the evening, now at 10.25pm it is sickening in Manor Close, & we cannot keep the windows open on a warm night... BDC are disgusting in their lack of duty to residents

I write again to complain about the disgusting smell coming from the Composting factory at Newington. As I lie here sick in bed, I am assailed by a smell which is difficult to describe.

Unfortunately the stench from TTN is such that one has to retire indoors and close the windows. I know not what the wind direction is other than it is wafting the stench from the direction of Newington to us in Misson.

I'd like to register a complaint about Tunnel Tech odour 8th June at 20:17 & again yesterday around the same time. I was unable to sit outside at my home and enjoy a nice sunny evening due to the offensive smell.

Dreadful stench emanating from TTN first detected at Misson Mill at 7.30am on 9th June, 2021. The prevailing wind has changed given the summer weather and is now westerly and in the direction of the village.

Stench from TTN past two days has been disgusting&totally unacceptable.Why are our concerns not being addressed by BDC ?

We've woke up to the stink of Tunnel Tech in the house and have had wafts on an off this afternoon. Now we're getting a strong stink coming in the windows. It's just not good enough - but what do you care!!

Revoltng stench from outskirts of Misson along Bawtry Road driving towards the plant today Thursday at 13.30. Close to the plant it stank of rotten eggs - hydrogen sulphide - anaerobic bacteria. It was vile. 10 out of 10.

Complaint Two-At around 8.00pm yesterday we were walking around the village& encountered the most horrendous stench around the Dame Lane area and later on West Street.

Every day this past week going downstairs in the morning and the hallway stinks where the smell has seeped in overnight and become trapped.

Tues 15 June - the usual vile TT stink driving past site 1.20pm & still stinking late afternoon towards Misson.

Odour from above outside house

Odour from above 5pm outside house

Odour from above in the evening outside house

See attached complaint about the odour from above

Smell while sitting in the The Angel Inn at Misson & also could smell it when they returned home

smell during the night had to close windows as could not sleep

stench on village green between 5am and 8am

odour driving through Everton at 10am

See attached - Drove past above on 23rd July at 10am and stench terrible

See attached email regarding the ongoing odour from the above
