### Progress of planning applications (No outcome yet)

**Application No:** W/23/0454/LB

**Description:** We would like to move the existing kitchen which is currently situated in a 30 year old extension into the current back lounge, which, we believe was where the original kitchen must have been located before the new rear extension was built. This would then give us the opportunity to use the extension as a sun lounge replacing the single paned window and door for a double glazed bifold door. We also wish to install internal secondary glazing to the front room window where currently there is just single paned glass and repeat this in the front bedroom which again is just single paned glass. The front room would then become the main living area where we would like to construct a small internal cloak room as you enter the front door from the pavement, consisting of one partition wall and door. We would like to be able to carry out these changes as our priority is to cut down on carbon emissions as

our only source of heating is via our log burners situated in the front and back room. The changes would insulate our home, thus making it more energy efficient for the future.
