APPENDIX 1

Dear Sirs In recent weeks two hedgehogs have been killed on the road into Bishop Monkton and one near miss has been recounted to me. As a village we are an important oasis for hedgehogs in a landscape of intensive agriculture which does not provide a good habitat for them as fields are becoming bigger and hedges disappearing. Hedgehogs are now red listed as an endangered species and in danger of extinction in the UK having declined catastrophically in recent years and so it is important to let car drivers know of our population and make them aware of the possibility of coming across hedgehogs while driving in and through the village. A private warning sign which has previously been erected has now broken - please see my photograph. Please would you provide signage, which I know is available and approved from North Yorkshire Highways, at the 30 mile entry points to the village? While writing could I also please draw to your attention that the 7.5 tonne weight limit sign at the crossroads on the A61 is so faint as to be almost illegible
