

NETHER WALLOP PARISH COUNCIL

Railings alongside Village Green.

After the recent clearance by the Village Green Working Group of The Rill and the bank next to Stewart's Bridge, the area is much improved. A suggestion has been made that the railings next to Stewart's Bridge be repainted.

It is assumed that the railings are owned by Hampshire County Council (HCC) as part of the highway furniture. HCC have been written to and asked if the parish council can arrange the painting of the railings. (response pending at time of report).

If HCC agree that the railings can be painted, the Village Green Working Group have volunteered to carry out the work.

Council will need to approve the cost of the paint and any other materials required for pre-painting preparation. Costs are not yet known, but should not be extensive.

Councillors are to decide if there is a ceiling limit that can be approved at this meeting, in order to allow work to start as soon as permission from HCC is received.
