### 50/25 Public Participation, incl. update from Bradford Estates representatives

To allow public participation in accordance with the Council's Standing Order procedure.

Steve Farrow from Bradford Estates gave an update and answered questions, as summarised below:

- Bradford Estates development (land North East of Bradford Drive) - Apologies that development lead couldn't attend meeting.
- Huge amount of work has been done to revise the scheme based on feedback received at previous meeting the Estate attended in Jan. Design & Access statement was shared with the PC and public.
- Lots of technical work and surveys completed around surface water and drainage. (Pg 11)
- Proposed layout revised from 25 to 18 units of 2-4 bed houses as a result of feedback, surveys, etc.
- Biggest impact on site was surface water, area north of plan shows concentrated flooded area, design has been revised accordingly. No development proposed on areas of high flooding. (Pg 9 – surface water survey results.)
- Public concerns about flooding in north west corner where properties are proposed. The drainage scheme accounts for that.
- Parking: min 2 spaces per property, 44 spaces allocated.
- Road width has been increased to 5m to meet standard requirements. Reduced number of properties will reduce no. of cars and impact on existing road network.
- Will be a footpath for new development, but no footpath on existing development.
- Capacity concerns about existing drainage on Knights Grove. Sewage for new development will pump directly into mains, pumping station expected to be underground. Residents not reassured that new development plans for sewage will function as planned, given that reed beds sewage station at Church Lane is pumped 4 times a year and sewage smell persists and has not been resolved.

- There will be holding capacity on site to manage surface water for subsequent release into Weir Brook. Public concerns about what happens when Weir Brook floods and whether drainage impact on community on the whole has been considered.
- Steve Farrow will check how construction traffic will access site and pass answer on to Clerk. Public were concerned how 40ft articulated lorries will get through Bradford Drive which is narrower. Delivery vans and cars can't pass currently. 6- to 8-wheel vehicles may be able to get on site. SC Highways will be consulted, if proposals don't meet requirements, permission won't be granted.
- Steve Farrow will obtain info on gas storage and whether there will be streetlighting.
- 2 unit 2-bed properties proposed for affordable/social housing units, to be managed by a housing association. PC requested clarification on whether these properties are Affordable or social housing. If affordable they need to be affordable in perpetuity.
- Steve Farrow assured attendees that everything has been designed to meet current requirements, properties designed to fit Knockin and the local vernacular, and so that people will want to live there.
- Timeframes – Estate expects to submit FUL planning application in next few weeks, but delivery timeframes will depend on planning permission.

The Chairman thanked Steve Farrow and he left the meeting at 19.58.

It was **NOTED** that:

- Melverley drainage board – The drainage board Clerk will send written confirmation that the land can't be developed as it is too boggy. Only way to manage water would be to divert underground to reach another brook which would need permission from a different landowner.
- Serious concerns about width of Bradford Drive (narrower than Church Lane) which would be access route to new development site. It was **NOTED** that Bradford Drive development was designed by Shinglers not Bradford estate developers and is an adopted road.
- Members of the public asked PC to find out how sewage is going to be removed from site, and how developers will ensure no sewage smell.
- It was **NOTED** that until official plans are live on the SC planning portal neither PC nor members of the public can make any decisions or comments. There will be a public meeting for considering the planning application when it goes live.

5 members of the public left the meeting at 20.11.
