

The Havens Community Council is seeking quotes from qualified companies/persons to rebuild the bus shelter at the top of Croft Road, Broad Haven.

The scope of work includes:

- Dismantling and removing the existing bus shelter
- To rebuild the Bus shelter the framework for the back sides and front should be made using 4" x 2" timbers
- The back should be panelled top to bottom using 6" x 1" V Tongue and Groove to give added strength.
- The sides of the structure will comprise of a 600mm x 600mm unbreakable polycarbonate sheet in each side and surrounding will be panelled using the 6" x 1" V Tongue and Groove
- The shelter's front should feature a central opening, with V Tongue and Groove panels and polycarbonate sheets on both sides for added light. The Roof of the Shelter will be made using 3" x 1" timbers for the framework and panelled using $\frac{1}{2}$ " OSB sheets before covered with top quality roofing felt.
- The existing pathway must also be extended to the kerb.

For further information please contact the clerk at the below email address.

Please submit your quotation to clerk@thehavenscommunitycouncil.gov.uk by Friday, 30 January 2026.
