25 sheets of 2.0 mtr x 2.5 mtr chip board	£0	Free from a firm called Kronospan for the lining of the Shed
<b>TOTAL</b>	<b>£5636</b>	

2015 - In the beginning there was a plot of land in the Oswestry Showground .....

By February 2016 we had cleared trees and undergrowth, levelled the land.

The PortaCabin was donated and shifted to its present location and power and water supplied to it.

Concrete base down and the new timber workshop built .....

A tremendous achievement by a small group of people to get the Oswestry Mens Shed to this point.

Note: The Shed is deemed de mountable as is under 13 foot six at the ridge , They also made sure we have our own electric meter to control costs .
