80/25 District / County Councillor Reports

- Report from District Cllr Tipp
 - I am told that ultrafast broadband, delivered through Project Gigabit a £5 billion UK government rollout is bringing faster internet to rural areas by 2032. NFDC is facilitating the "Click and Connect" initiative with partners YTKO which offers free support to help people gain digital skills and benefit from faster internet. Funded

through the government's UK Shared Prosperity Fund, the initiative is designed to support:

- Residents especially older adults and those who feel excluded from digital services
- Businesses including micro and small enterprises looking to adopt new technology
- Community groups aiming to strengthen local connections and reduce isolation
- Businesses and residents can register their interest and find out more at: Click and Connect New Forest - YTKO The idea is that courses will be carried out in local village halls etc. depending on interest.
- Finally on the issue of speed indicator devices I would recommend talking to Lyndhurst PC as I noticed they had a device attached to a lighting column on the A35 and this seems worth exploring.
