| 1  | <b>LILLESHALL ALLOTMENTS - SUBSIDIES.</b> Few allotment holders are Lilleshall electors and a disproportionate number of them have connections with our Council. The allotments should be fully self-funding and cost Lilleshall electors nothing. Yet the Parish Council has budgeted to run them at a loss for a second year, without having even costed the many hours that our salaried Parish Clerk spends administering them. These subsidies are most unfair on Lilleshall electors as the main beneficiaries are Muxton electors. Allotment rents should be increased immediately to cover all of their costs including administration and this principle should be observed annually when budgets and rents are reviewed.                                                                                                              | Land use     | LNPG Pass on comment to LPC to provide a policy statement and response to comment. LNPG to include issue within questionnaire and consider for proposed for Plan Policies. |                                                                                        |
| 2  | <b>LILLESHALL ALLOTMENTS - OWNERSHIP.</b> The allotments at Cheswell were funded by our previous council to provide some 30 allotments for Muxton electors and 6 for Lilleshall electors. (Donnington already having allotments). While legal ownership passed to Lilleshall in the re-organization, Muxton has a strong moral claim to most of them. A transfer should be considered, giving Lilleshall a permanent entitlement to six of them. It is ridiculous that our small Parish is administering 36 allotments when it has only some 6 allotment holders, several connected with the Council.                                                                                                                                                                                                                                           | Land use     | Pass on comment to LPC to provide a policy statement and response to comment. | 19 | <b>BOUNDARIES.</b> There should be boundary adjustments with Donnington & Muxton, Church Aston and Chetwynd Aston & Woodcote Parishes to align the Lilleshall Parish boundary with the Lilleshall Strategic Landscape Area (SLA) boundary, and a further adjustment with Church Aston Parish to unite Cheswell and Brockton within Lilleshall Parish. There should be internal SLA boundary adjustments to 1 give The Weald SLA a more rational boundary, 2 deter further erosion of the view from Lilleshall Hill to The Wrekin SLA and 3 remove minor boundary disparities. Separate adjustments (not shown) should be agreed between Telford & Wrekin and Shropshire Councils to unite Lilleshall Hall and Golf Club with Lilleshall Parish. And, if the Muxton H1 Sites are approved, they should be transferred to Muxton. (Map provided). | Land use     | Prepare a Boundaries questions for the questionnare                                                                                                                        |                                                                                        |
| 20 | <b>BOUNDARIES.</b> The Lilleshall Srtategic Landscape Area should be joined to the Weald MoOrs Strategic Landscape Area.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Land use     | Develop a formal proposal for presentation to TWC and neighbouring parishes                                                                                                | 148/5                                                                                  |
