

Dear Valued Customer

Re: Maintenance of your outdoor gym

Congratulations on your new Fresh-Air Fitness Outdoor Gym!

We trust you are happy with the installation of your new gym units and wish you many years of fun-filled exercise.

Although our product has a very low maintenance requirement, regular maintenance checks are essential to keeping the equipment safe for use and in good working order. The equipment warranty requires you to perform weekly maintenance checks and also to complete the monthly written logbook (attached below). When you complete each monthly entry you will need to file it safely as it will be required for warranty claims in the future. (Please photo copy the pages below to allow you to record each month's inspection.)

You will receive, with the equipment, a maintenance pack that contains tool fixing bits and touch up paint for upkeep of the units. If you have not received this, please contact us and we will arrange for one to be sent.

All replacement parts can be purchased from us directly. You can purchase new parts, touch-up paint or signage by emailing Fresh-Air Fitness on service@fresh-airfitness.co.uk

Yours Sincerely

Paul Martin

Managing Director

Maintenance obligations as required by our warranty terms

Weekly Checks

- General sweep up of site and litter clearing.
- Clean down surfaces. Wipe off any graffiti with anti graffiti wipes.
- Check for any damage and if there is any, **report this to Fresh-Air Fitness** with an accompanying digital photo. Ensure the equipment and outdoor-gym area is left safe for use.
- Limiters are incorporated in the bearing housings on many units. Check they are functioning correctly. (See Page 8 for instructions)

Every Calendar Month

- Use the logbook to check over each and every piece of equipment.
- Look out for trip hazards or waste deposits, broken glass etc at the site area and if necessary close down site if the hazard makes the area unsafe for public use.
- Touch-up any scuffs, or marks showing on the equipment paint surface.
- Lubricate all moving parts – check for damage due to normal wear and tear.
- Look in detail at each item of equipment in turn working from the top down & checking that all of the components are present, secure and functional.
- Check also that all plastic caps are in place, if not, replace them from tool pack items.
- Check that base covers are in place & check for any free play to the ground mounting or foundations.
- Tighten bolts and nuts – use key from tool pack as required.
- Ensure equipment is left safe for use.
- Record all details in logbook and file logbook safely for future reference and to comply with safety requirements.
- **Notify Fresh-air Fitness of any product defects.** with an accompanying digital photo. Ensure the equipment and outdoor-gym area is left safe for use.

Annual Inspection

- It is recommended that an RPII Inspector should undertake an independent annual inspection.

Maintenance Check Sheet

Task	Equipment Name	Is there a problem?	Has the problem been resolved?	Is the equipment SAFE FOR USE?
Re-paint any chips that have occurred in paint work				
Lubricate All moving parts				
Look in detail at each component making sure all components are present, secure and fully functional				
Check that all tamper caps are in place and where necessary replace them				

Maintenance Check Sheet

Continued

Task	Equipment Name	Is there a problem?	Has the problem been resolved?	Is the equipment SAFE FOR USE?
Check the limiters or resistor bearings are operating correctly				
Check for any looseness of the unit's ground fixings				
Check the base cover is fitted and not damaged.				
Tighten All nuts and bolts.				

Equipment Signage (Weekly Check)

All Fresh air Fitness equipment has two signs attached to each piece:

- Ensure there is a safety sign attached.
- Ensure there is an equipment sign attached.

Air Skier

Instructions

- First grasp both handrails.
- Keep knees together and gently start swinging side to side.
- When finished slowly decrease speed and come to a stop before stepping off.

Suggested exercise routine

Beginners: 25 each side
Intermediate: 50 each side
Advanced: 100 each side

*Always work within your ability.
 Stop if you feel faint or dizzy.*
