

## **Neighbourhood Watch Annual Report for 2020 to 2021**

This year has been an extremely quiet time for the Linton Neighbourhood Watch Group, which is obviously a very good sign that it is a relatively safe area to live in. There have been no reports of house break ins or thefts that we have been made aware of.

Four families new to Linton have joined the group which is encouraging.

As a group we always encourage anyone who lives in Linton to join. There is no joining fee, all that is required is a postal address, contact telephone number and email address if there is one. With this information, your name will be added to the group and if and when there is any information to be sent out that is considered useful and helpful, an email or telephone call will be made advising of the situation.

As an example of when being part of the NHW Group is useful, some while ago, there was a major water leak in Wheelers Lane resulting in the water supply being cut off from properties in this lane. The water company delivered bottled water to Wheelers Lane and I was able to send out an email to everybody advising where the bottled water was located. Also, we are made aware of road closures etc in the local area via the Parish Council Clerk and these are sent out the NHW Group when received.

Please do not hesitate to contact Patricia Burden, NHW Co-ordinator at [Thenewhouseme17@btinternet.com](mailto:Thenewhouseme17@btinternet.com) with your details if you wish to join the group.
