

YOUR COMMENTS

We asked what you saw as the main threats for the future of Chelford Parish - Here are some of the things that you said.

Encroachment into the Green Belt in order to build large, expensive homes

Too many large scale developments

The loss of the village character

Lack of retail outlets and community facilities

No central focus to the village

Large scale developments without the infrastructure to support it

Over development of the wrong type of houses – we need smaller homes for youngsters and single storey for the elderly
