

ALDBOROUGH AND THURGARTON PARISH COUNCIL

Renovation of the Green/Kerbside

This area of the registered Village Green has been significantly eroded over time through vehicle parking.

Parking on the Green is not permitted under legislation and bylaws however, we do recognise we are a functioning village and that to some extent it has to be tolerated.

The Parish Council are undertaking renovation of this area that will hopefully prevent future erosion by installing reinforcing grids to be backfilled and seeded.

This work is permitted under the Scheme of Regulation for Aldborough Green, specifically, execution of necessary works for protection and improvement.

The work will be undertaken on 28th September and the area will be temporarily taped off to enable the grass seed to establish.

We apologise for any inconvenience in the short term.

Aldborough and Thurgarton Parish Council
