2. Any Questions or comments:

Questions were raised and discussion took place with regard to the Parish Council's feeling about the green areas and open spaces within the Parish. The Chairman pointed out the section in the recently reviewed Parish Plan that states "the Parish Council considers the views and vistas within the Conservation area, adjacent to areas with special environmental designations and areas offering biodiversity opportunities should, wherever possible, be protected and will, if necessary, lobby for green space designation for

open spaces that are threatened with development that does not meet the identified needs of the community” answers the question adequately.

There was also discussion with regard to notifications to residents of meetings and important events and although the Parish Council uses its full range of notification tools, it will consider other measures should it be necessary to engage on a wider basis.
