Pavilion

The complete internal fabric of the pavilion is currently being refurbished with a like for like décor. This is being completed by the Sports Association and is expected to be finalised within the next two weeks.

The three main switches, one in each changing room and one in the kitchen that operate the hot water tank are set to be replaced with push button time operated controls. This will alleviate the anxiety of a scenario involving a switch being left on until discovered at the next pavilion use.

Due to age and use the flooring in the main room, kitchen area, gents and ladies toilets is in need of replacement. It is envisaged to lay primer and screeding compound to the smooth floor area following removal of existing flooring. Then to lay a Polysafe Standard vinyl sheet fully bonded with an approved adhesive floor. The WC's will have vinyl upstands over coveformers into capping. To assist with an estimated £4500 costing the Sports Association would request that £725 be allocated from the BPC Pavilion refurbishment plan towards this project upgrade.
