#### September 2003

What a difference a newspaper makes! Not only is there a sense of relief amongst the newsaholics of West Ilsley at the reinstatement of the delivery, but those who have elected to collect their own, are enjoying a little community interaction which had rather disappeared when the Post Office closed. As some advert used to say – "it's good to talk" – and so say all of us!

#### CAFE CULTURE

Frank O'Phile

During my visits to the Village Hall over the past week, to collect my newspaper, it became apparent that this task seems to be, in the main, carried out by the senior male of the household, as indeed happens in France. What is missing and is there a business opportunity waiting to be exploited?

Imagine the scene .... on arrival at the Village Hall the menfolk collect their newspaper and rather than returning home, sit reflectively over a cup of strong black coffee and perhaps a small cognac or pastis, reading the headlines, putting the world to rights, spreading rumours and gently easing themselves into the day beneath a haze of Gauloise smoke. Some may even wish to partake in a gentle game of boules on the newly established boules court (gravel car park area)

Is this a summer dream? The weather has been spectacular, even at 7.30am. Would this dream and any profits for the would be proprietor vanish once proper English weather returns?

#### HARVEST REPORT Peter Carlisle

The 2003 Harvest started on the 14<sup>th</sup> July after our sun drenched Flower Show – well, it couldn't start before could it?? It all seemed so normal; the winter barley was gathered whilst the sun beat upon us, and then the rains came. We managed to snatch days during the rest of July to harvest the remaining winter barley and the winter oilseed rape crops.

We re-started harvest with the spring barley crop on Saturday, 2<sup>nd</sup> August at 3 o'clock thinking we may get a chance for a couple of days of combining whilst the weather lasted. Little did we know what was in store. We have had the most wonderful August weather; the bulk of the harvest was in the grain stores within two weeks. The noise from the grain 'coolers' was minimal!? and the 'old wags' were likening the proceedings to 1976. I can't remember that far back! The wheat yields were affected by the hot weather, being slightly down, (but not as much as our European counterparts), whilst the barley and oilseed rape yields were about average. So, not a moaning farmer to be seen or heard!

#### The Heartache of Separation

Living away from home, from mum and dad, when you're just a child is hard enough. It's doubly difficult when you have to separate from brothers and sister too. Sadly, it's a reality for a number of children in foster care across our region

According to local fostering agency director, Andy Clipson, "children are often separated from brothers and sisters because there are simply not enough foster carers and those that are available nearly always have a full house."

familyplacement.com is launching a new recruitment campaign this autumn to urge more people to come forward to care for these local children. If you think you can help, or would simply like more information, please telephone 01993 706925 or email: info@familyplacement.com

BEWARE! This article appeared in the

#### Mencap Newsletter

We have been informed of the following scam, which is targeting females in particular, They receive a phone call from the Post Office asking them to confirm their postcode. When this is given, they are told that they will become eligible for some gift vouchers for their co-operation and are asked to provide their home address and postcode in order to receive the vouchers. So far 90% of the women who have provided this information have been burgled, as it is assumed that their homes are unoccupied during office working hours. The police are aware of this scam and the Post Office have confirmed that they are NOT conducting any postcode surveys. Also, it has been reported that if you receive a telephone call from an individual who identifies himself or herself as being a BT Service Technician who is conducting a test on that line, or if anyone asks you to do the following DON'T! They will state that to complete the line test the recipient should dial nine, zero (90) then the hash (#) key and then hang up. This will give them full access to your phone line which allows them to place long distance, international or chat-line calls. These are then billed to your account. The information which the police have received, suggests that many of these calls are emanating from prisons. The information has been checked out by the police and is correct. DO NOT PRESS 90 FOR ANYONE. Please pass this information on to friends and colleagues, as it could cost someone a lot of money.

And finally: contributions to the WIN can be made by conversation, phone, email, handwritten or typed copy, "word" file (via email or disk) or fax, but most importantly, **please do contribute**. The **latest deadline** for the next publication is **5pm** on Thursday 25<sup>th</sup> September but the editors would appreciate receiving your contributions as you get them ready during the month, to save a rush of work at the last minute.
