**16/208 – Comments from the public:** A member of WCLG (Wormslade Community Liaison Group) attended and spoke in relation to the Planning Application 17/00037/WASVOVC - Variation of Conditions 2 (Scope of Permission), 5 (Operation Limits and Feedstock) and 14 (Catchment Area) of planning consent ref. 15/00090/WASFUL to modify the approved feedstock to incorporate other waste materials at Wormslade Farm, Clipston Road, Clipston, Market Harborough, LE16 9RP. They met with Stuart Homewood of Raw Energy and had visited two of their sites. One of these sites processed out of date food and the other processed silage. The silage plant appeared to be well run, and not too odourous or noisy. The other site which processed food waste also appeared to be well run but did create more odour.

Neither plant visited is identical to the proposal at Wormslade.

They have submitted an objection letter to the application on the basis there is now a proposal for a minimum of 50% commercial waste to be processed.
