Subject: Memorial for [REDACTED]
Attachments: black-granite-tigger-kerbset-memorial_1-700x700.jpg

Good afternoon,

We have been approached by the mother of the late baby [REDACTED] regarding a memorial in Swaffham cemetery. I did speak to Kerry earlier who advised that we would need to apply for permission in the first instance and then this would have to go to a committee for approval. The family are very keen to get an inclusive price for the memorial, including any necessary permissions.

I have attached a photograph of the memorial that the client would like and wondered if you could tell me from this if it would be likely to get approval and if so, how much the fee would be? Please note that the client does wish to have a full sized kerbset placed on the grave and not the shortened version in the photograph.

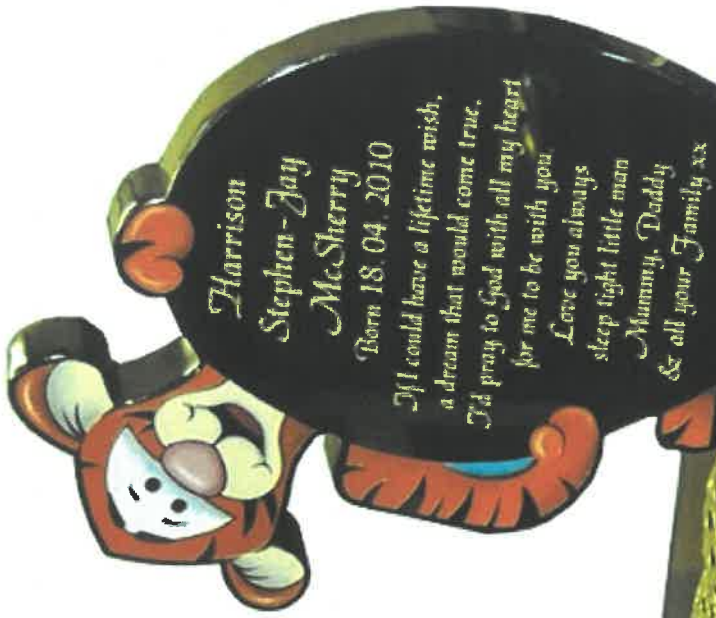

Kind regards

Laura
