Open Forum
The Chairman introduced Mr. M & T Sharples who presented their revised plans for the scout field. Mr. M. Sharples noted that they had a meeting with the planning officers at Stratford On Avon District Council, and in the light of their comments they presented an amended set of plans which now had a total of 9 dwellings, and after discussions with the Stockton Scouts the building will be moved to another position on the same field. Messrs. Sharples also reiterated their plans for the future of the playing field in line with their grandmother’s intention. There followed a discussion about the scout and playing field with M & T Sharples, Parish Cllrs. present, representatives of the scouts and the public. M & T Sharples indicated that they will put an amended application to the planning authority hopefully by September. M & T Sharples also indicated that they would be willing to remove the road from the new development to the playing field. Councillors emphasised to M & T Sharples the need for a clear written commitment from the landowners of the playing field to sell the field to the Parish Council for a nominal sum, together with an explicit statement regarding the conditions under which the playing field would be operated before it could be expected to make a decision to support a planning application.
This concluded the discussion, the Chairman thanked M & T Sharples for their attendance and they left the meeting.

Hilary Green asked that the original letter of support for Stockton Scouts from the Parish Council be sent to her, the Clerk will arrange this.

The Chairman introduced the concept of the memorial green to the meeting and outlined in an initial drawing how it may look, and how it may commemorate all those who served in all conflicts. The Chairman then introduced Mr. M. Thomas of Napton, who has experience of war memorials. Mr. Thomas then gave an explanation of how memorials may be funded and how that funding may be accessed.
There followed a discussion with the public regarding the memorial green and what it might look like. The Chairman thanked Mr. Thomas for his attendance and comments to the meeting, then Mr. Thomas left the meeting whilst leaving some documentation regarding access to memorial funding options.

Mr. Legg, and Mr. Griffiths Roberts brought up the matter of the change to the original permissions for the Barley Mow change to flats. In the original permissions the entrances to all flats were at the rear of the building; however an estate agents advertisement showed that 2 flats had entrances onto the village green. The Clerk ascertained from the planning officer that this amendment had been received by the planning officer, and it was deemed to be so minor that the Parish Council was neither consulted nor informed that the change has been granted permission. There followed a discussion about this and it was noted that the Parish Council and indeed individual parishioner should write to the District Cllr. Riches complaining about this (given that there may be no automatic right of access across the
green), and ask that he contact the head of planning about the delegated powers of individual planners and notification and consultation with Parish Councils.

This concluded the Open Forum, and the Parish Council meeting began formally.

Housing development: The Chairman gave notice of a reply from D.Edmonds, Senior Planner at the District Council on affordable housing which stated:-
"Dear Mr Collerson.
When we discussed the issue of whether the planning obligation could, in respect of, the affordable housing provisions, have a 'local connections first' wording, a few weeks ago, my initial view was that this would amount to a variation of the committee resolution Thus I thought it would fall outside the discretion given to the Planning Manager, given that the committee report did not mention it, which reflected the fact that it was not raised by the Parish Council. This was also the steer of my line manager, Graeme Law.
However, upon further reflection and a discussion with Macer Nash – SDC Legal, today, it appears it is custom and practice to have a 'local connections first' provision, in those parts of planning obligations related to affordable housing. This starts with residents of Stockton and if there are not enough qualifying residents it would cascade outwards to adjacent parishes and then, if necessary, wider SDC residents. Moreover, this custom and practice falls within the scope of the generally worded committee resolution. Therefore it would apply to all of the affordable housing on both sites.

Kind regards
Playing Field: Cllr.Millidge noted that the steps to the large slide will need to be restored but that this can wait until after the school summer holiday. Cllr.Millidge also did a safety assessment of the play equipment and found all to be satisfactory.
