

NETHER WALLOP PARISH COUNCIL

To consider and if appropriate approve the lighting of a beacon for the Queen's Jubilee on 2nd June at 9.30pm on the village green.

A request had been received by a resident asking the village green may be used.

Here are the details of the Jubilee Beacon.

What Royal Inst of Chartered Surveyors offers:

- Freestanding gas beacon from 21CC, listed on page 17 of the [guide to taking part](#) (value of £500) – it's 2m tall but sturdy and easy to light
- Insurance to cover volunteers lighting the beacon, plus associated community event if needed (note the PC insurance will cover the event provided councillors approve the event taking place.)
- Volunteers to support with lighting and wider community events if needed (e.g. marshalling)
- We will have a list of public beacons members can attend published on our website if sites are open to the public

What RICS asks:

- That the beacon is lit on the 2nd June 2022 at 9:30 and is part of the anchor chain
- That the volunteer lighting the beacon also sources 2 13kg propane canisters – readily available from most petrol stations and hardware stores; we can't do a bulk order here because of the national shortage – but we will reimburse the cost of this
- Ideally that someone can store the beacon between delivery in April from the supplier and the lighting itself on the 2nd June

The resident has stated he is happy to be the liaison with the providers, to get the gas and keep the beacon at his home.

[Councillors to decide if this can be approved or not.](#)
