

Borden Sports Association

September 2026 monthly report

Refuse

At the time of writing, we are still an outstanding waste bin from Swale Borough Council. The Clerk has chased this on behalf of the Parish Council.

The Chairman reiterated the need for groups that use the Pavilion must take their waste home.

Legionella Policy

A Policy was drawn and forwarded to the Clerk for her records. The Policy was accepted by everyone present. The Secretary will keep forms for 6 years and the running of showers will continue when not used in a weekly period and recorded. A plumber has dealt with 3 deadleg pipes in the building and 2 in the garage.

The Chair reported samples were taken on the 18th August and received on the 19th August. He was pleased to announce the samples passed the test and no legionella is present. The test will need to be done in 12 months' time.

Contribution

Last November the Parish Council contributed towards the electric, tea and coffee used at our meetings. These are not only the monthly Full Council meetings, but those of the Nature Reserve Working Group, Highways and Finance Committees. We contributed £250 last year and with the increase in not only electric, but also consumables, I would

suggest we increase this figure. Please give this some thought in preparation for the meeting.

Football

Since the last report, the club have lost 2 games and won 1. Last Saturday saw them play a Cup game at home, beating Canterbury 6 – 2. They now enter round 2. Their next game is Saturday 12th September at Rochester City FC.

Please support our local football team; weekly fixtures are announced on the Village Facebook Group.

Cricket

The cricket season has now come to an end. Teams really struggled to put a side out, please spread the word in readiness for next year's season. **If you or know of anyone that is interested in playing cricket, please email bordenc1797@outlook.com**

Cllr Nicola Butlin

11th September 2026

Parish Council Representative
