

Youth Strategy Survey

Survey for Organisations and Groups

September 2019

Background

Shropshire Council is currently carrying out research and evidence gathering as part of a youth support consultation. There are three surveys being carried out as part of the consultation:

- 1) A stakeholder survey for local organisations with an interest in youth service provision.
- 2) A survey for children and young people to obtain their views
- 3) A public survey to gather the views of parents, grandparents, carers and other members of the public.

Shropshire Council is also making use of data and holding meetings to find out more and inform further decision making. In a time of austerity and public sector funding reductions, resources are limited so it is important to design an effective model of provision that meets the needs of those most in need of support.

Please take the time to fill in this survey. It should take approximately 15 minutes to complete depending on how much information you provide.

Shropshire Council is proposing a change in the way youth support is provided in Shropshire. The proposals for change are:

That a new model of youth work is implemented that incorporates, both:

- a) universal, open access groups (open to all, not restricted by appointments or invitations e.g. youth club sessions); and
- b) targeted support (addressing particular issues) through outreach or detached youth work (meeting young people in the community where they gather together and spend time).

The model would include:

- More emphasis placed on working with the most vulnerable young people and addressing issues of concern within communities.
- Youth workers employed to cover an area of Shropshire so they can get to know their communities. It is suggested that a team of 6 workers would be required.
- Development of new local networks where youth workers link to schools/colleges, voluntary sector groups and organisations, town and parish councils etc.
- Development of stronger referral networks between youth workers and specialist providers such as mental health workers, school nurses etc.
- Development of a stronger locality approach where there is more influence and support provided by town councils (and clusters of parish councils).

No	<input type="checkbox"/>

31. If you have concerns would there be any negative impacts on children and young people or on any other groups within the community?

32. Do you have any alternative suggestions other than the model set out above?

33. Do you have any other comments to make about the future of youth services in Shropshire?
