

Winchester Borough - Installation Update

Issue Date: January 2022

During the installation of our replacement aviation fuel pipeline through Winchester District, we will be providing regular updates on current and upcoming works.

For the latest information about installation of the replacement pipeline, please visit www.slpproject.co.uk or simply scan the QR code below.

Current activity

In Winchester District, we are currently clearing vegetation in the areas between Mincingfield Lane and Wintershill, and between Wintershill and Winchester Road.

Upcoming works

In February, we will start vegetation clearance in the areas between Ford Lake Stream and Gregory Lane, and between Gregory Lane and Mincingfield Lane.

We will begin open-cut pipeline installation between Gregory Lane and Mincingfield Lane in March.

If you have any additional questions email us at info@slpproject.co.uk

You can also keep up to date with the latest news by following us on **Facebook @SLPConstructionProject**, **Twitter @ConstructionSLP** or by signing up to our newsletter at slpproject.co.uk/signup to get regular updates.

Keeping 100 road tankers off the road every day

*Based on Esso's 2015 data for its existing pipeline

For more information please visit www.slpproject.co.uk

Winchester City Council

Once installed, the pipeline will be a quiet neighbour and will go unnoticed by most people.

Traffic management will be used during construction.

Public Rights of Way, such as footpaths, will remain open with diversions.

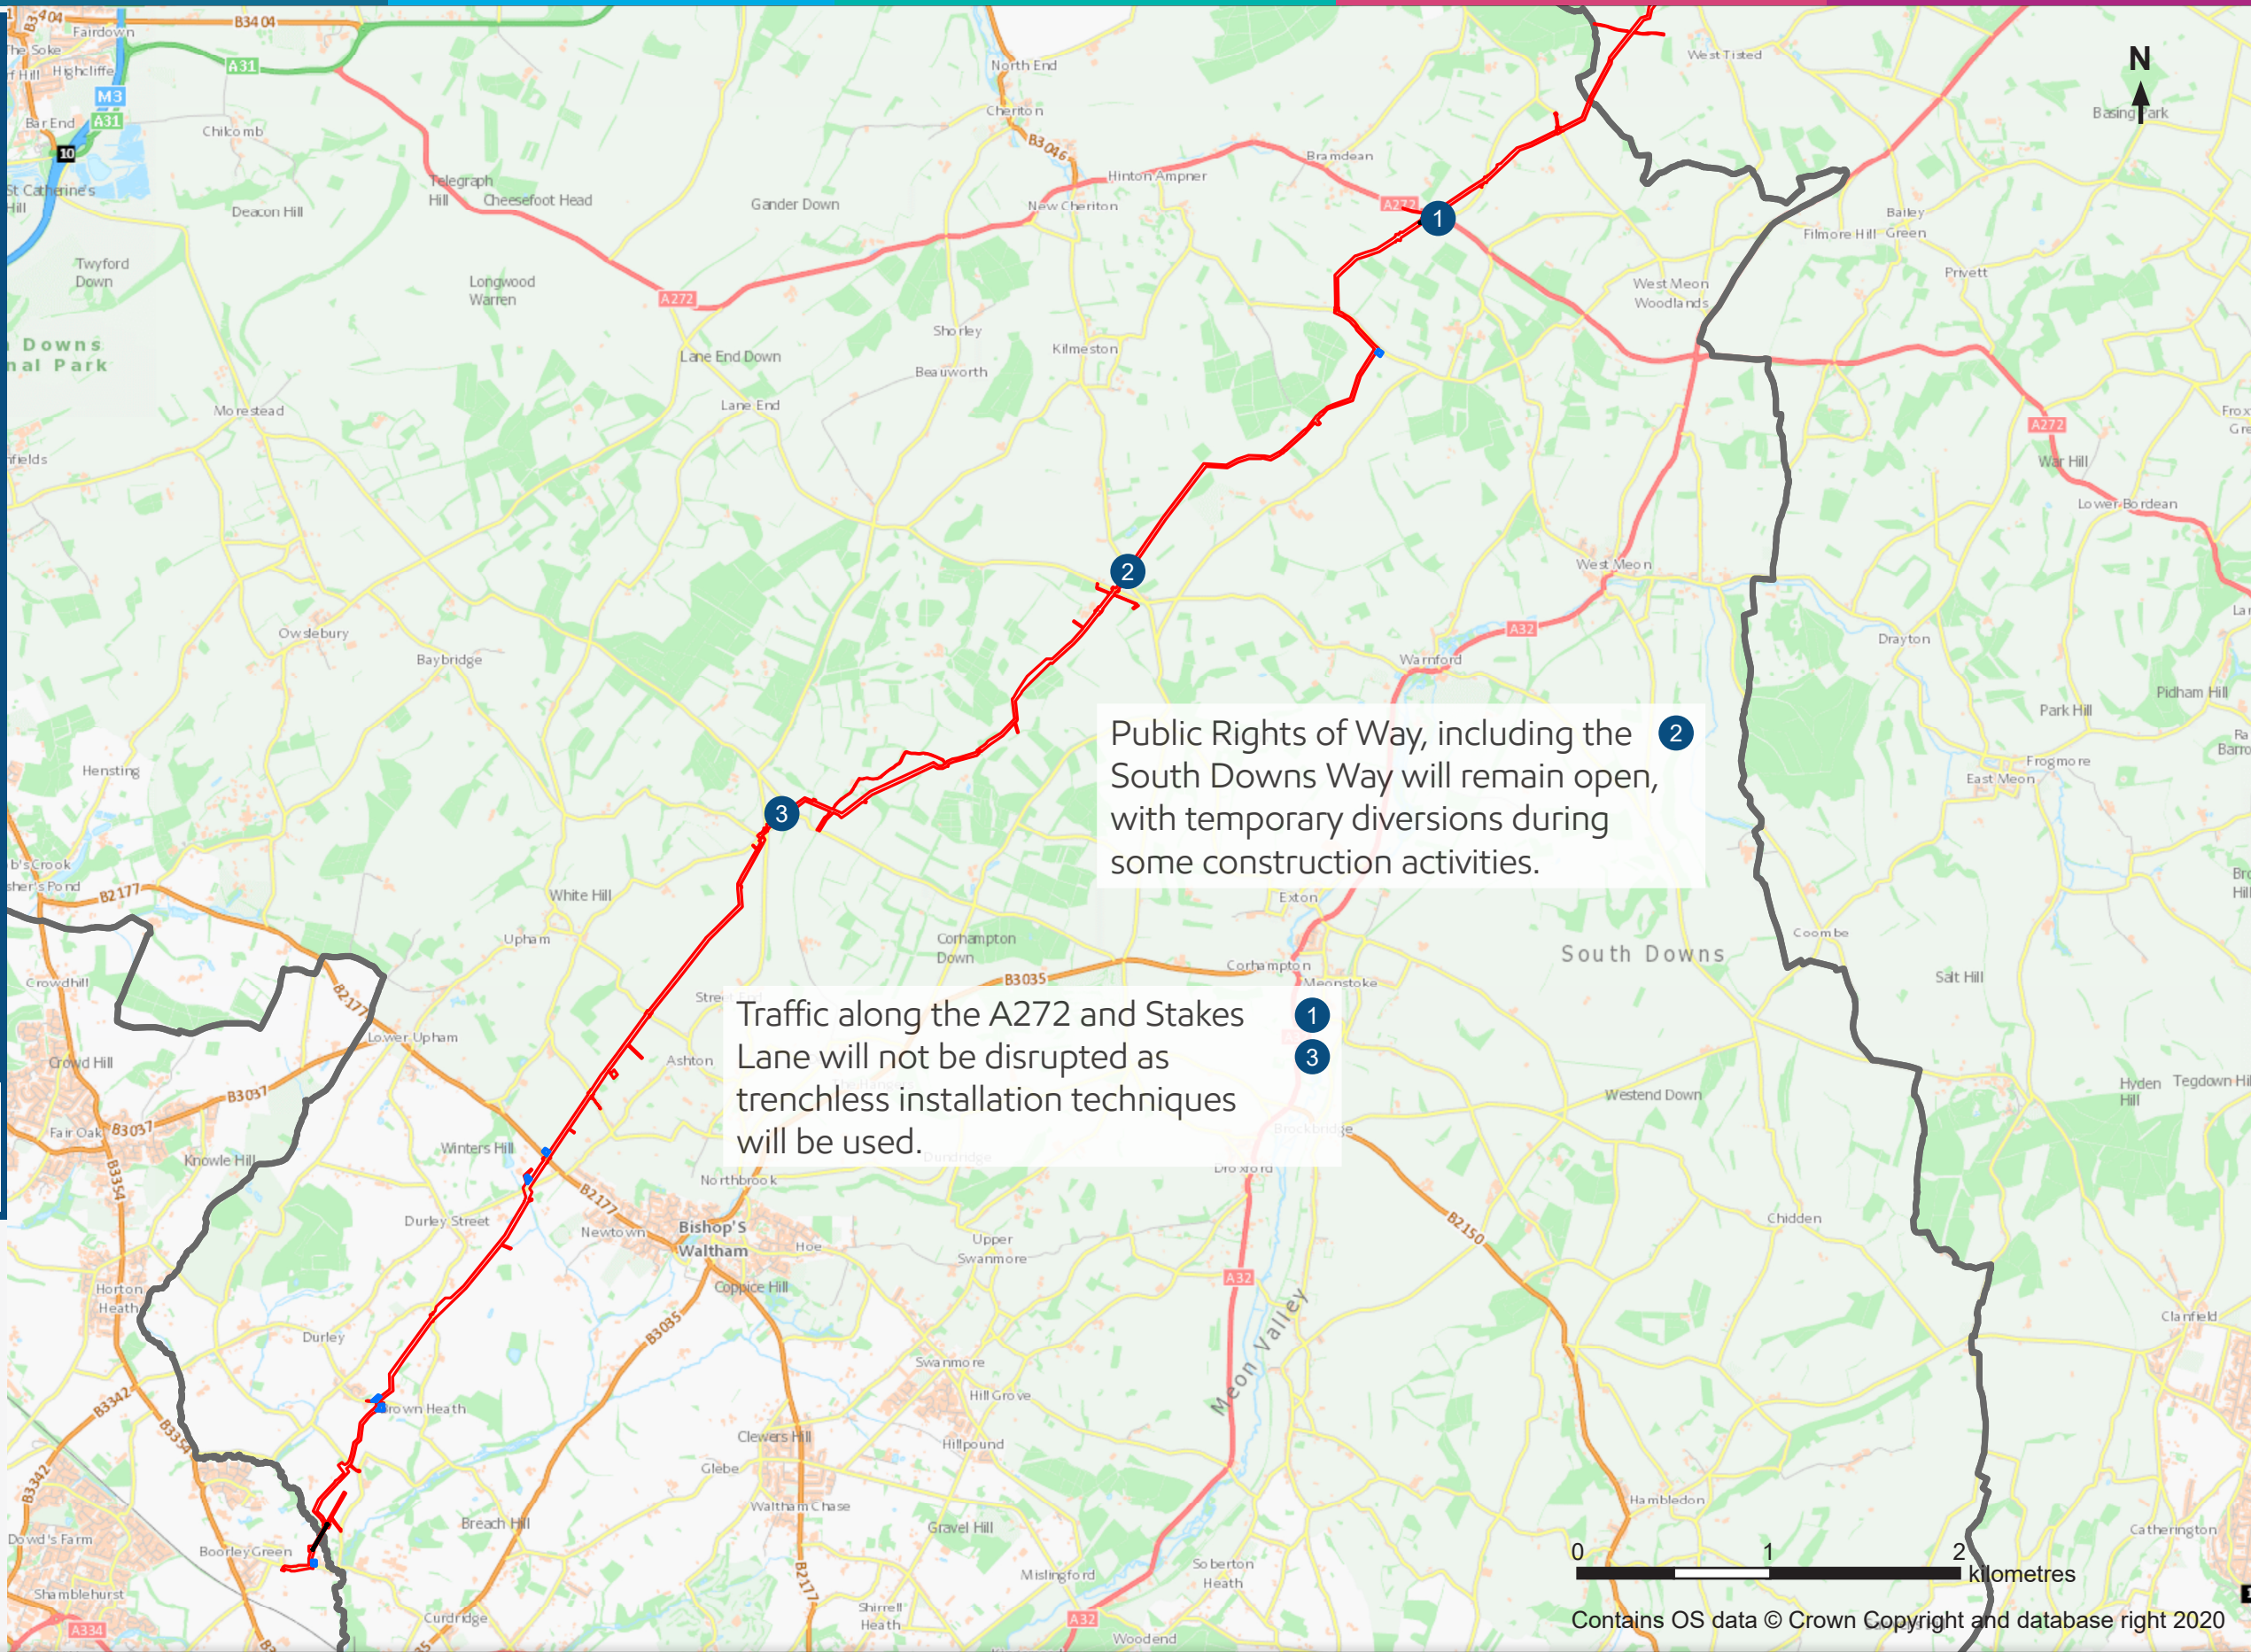

Vegetation will be replanted once construction is complete.

Scan the QR code to visit our interactive map for all information about our installation work.

Legend

- District boundary
- Maximum limit of the working area, also known as Order Limits
- Temporary construction compounds
- Trenchless crossings

Southampton to London Pipeline Project

This project is replacing approximately 90km of our underground aviation fuel pipeline from Boorley Green, Hampshire to our West London Terminal storage facility in Hounslow.

Pipelines are a safe, secure and low-impact way of transporting fuel.

The pipeline will keep 100 road tankers off the road every day.*

**based on Esso's 2015 data for its existing pipeline*

PL Planting

We are now releasing a local, area specific timeline for installation. This gives an indication of when we expect to be working in each area. We'll let you know at least two months in advance of any work starting and provide further detail of expected duration. Since we are currently progressing detailed design, the timetable may be subject to some additional change as we finalise our plans and work to reduce overall disruption during construction. Please be assured that if our plans change, we'll keep you informed. Once the pipeline is buried, it will be a quiet neighbour.

Community charter

Plenty of notice

We'll let you know at least two months in advance of any work starting and if our plans change, we'll let you know.

Here to help

We'll let you know at least two months in advance of any work. Our local team will be available by phone or email to answer any questions you have.

Information directly to you

Our local area e-newsletter and alerts will let you know what's happening. Where we are working in streets or roads, we'll operate a dedicated text service to inform interested residents.

In your area

We'll make sure information about installation in your area is easy to find on our website, in a way that is easy for you to identify what's important to you. In some public parks, we'll hold pop up events to meet with those using the facilities and give out information about our installation plans.

Talking to landowners

All landowners affected by the installation will have a dedicated member of our lands team to contact to discuss our work.

Open and honest

We'll be clear about our works and any disruption that may take place.

Safe and secure

We'll keep our team safe, and we'll keep you safe. Our commitment to health and safety is at the heart of our business and we'll make sure your safety is not impacted by our work.

Well managed sites

Our sites will use fencing suitable to the location and we'll use things like wheel-washing on our vehicles to keep the surrounding roads clean.
