PENINSULA

Welcome to Peninsula

How much more could you get done with the right advice and support?

When you run a business, the most valuable commodity of all is the hardest one to find: time.

Time to concentrate on doing the things you do best. The things that made you set up in the first place. The things that make your business grow. Because nobody sets up a business to spend their time learning about employment law or making sure they are up-to-date with their health & safety. Nobody except Peninsula, that is.

Peninsula is the UK's most trusted small business advisor. We help more small businesses in the UK than anyone else, taking care of the details and leaving you free to see the big picture. All for a fraction of the cost of most professional service providers, thanks to our affordable service options.

We started out providing employment law and health & safety expertise, and over the years the range of services we offer has expanded in response to the needs of business owners.

Today we can support you with the kind of professional backup that big companies take for granted.

To put it simply, Peninsula puts big company backup at your fingertips.

Success Starts Here

The Peninsula specialist HR, Employment Law and Health & Safety team is the largest in the UK.

- See recent history of queries and interactions with our team.

Insurance

Whilst we act for thousands of clients in employment tribunals, our business ethos is centred around the prevention of tribunal litigation and the reduction of time spent by you and your management on HR and Employment Law matters. But for complete peace of mind an insurance will be provided covering the defence of any future employment tribunal.

- Cover for awards and economic settlement for unfair dismissal and indirect discrimination if you take and follow advice, and all policy conditions are met.
- Unlike rival companies, the policy gives you the right to decide to settle the case is economically viable to do so.
- Peninsula is totally unique in having a dedicated Specialist Appeals Team; providing a full service from start to finish up to and including the European courts where appropriate.
- Where advice has been followed, we will not automatically settle a case simply because it is more commercial to do so than to resist it, and not decline cover purely in the event that prospects of success seem poor.
- Effectively an entire legal department on a retainer consisting of a mixture of bar qualified, solicitor trained Employment Law Specialists & Advocates.
- £200,000 per insured claim; and
- £2,000,000 for all claims and prosecutions brought against you in any one policy year.

SafeCheck

The SafeCheck review provides an independent evaluation of health & safety compliance, which includes a tour of the premises and a review of any existing H&S documentation giving pragmatic advice at the time, followed by a professional report outlining actions for improvements to take place.
