

Do you need help with transport to start work or learning?

Wheels to Work is a transport solution scheme aimed at helping you get over the initial problem of getting to work, training or education.

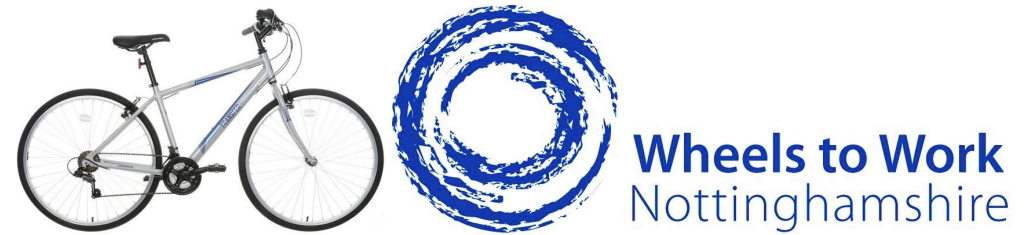

We can provide:

- A bicycle
- Moped training if you have your own moped.

We would provide you with the actual goods or services, not the money to buy them with, and we cannot reimburse you for money already spent.

Our funders make regular checks to ensure we are helping people who are working or on a course. Therefore, we will need evidence from you of your employment or course, such as a copy of your contract, payslips or a letter confirming that you have been offered the job / course.
