

Have Your Say – Proposed Double Yellow Lines on the B2162 just passed the corner of Green Lane for a short distance.

Collier Street Parish Council is seeking residents' views on a proposal to introduce **double yellow lines on a section of the B2162, from a short distance beyond the Green Lane junction to just before the bus stop.**

Following concerns raised by motorists, the Parish Council has been working with **Kent County Council's Highway Improvements Team** to review parking and visibility at this location.

When vehicles are parked close to the Green Lane junction, visibility for drivers leaving Green Lane is restricted. Vehicles travelling along the B2162 can be difficult to see until they are relatively close to the junction. The bend in the road makes this particularly difficult, as drivers turning right need to assess traffic approaching from both directions.

Parking has been observed at different times of the day, on different days of the week and during the evening.

There is also a **School Crossing Patrol Officer operating in this area**, and reducing parked vehicles along this section would improve visibility for drivers and pedestrians.

The proposal

The Parish Council is considering the introduction of double yellow lines along the section of the B2162 shown in the photograph below.

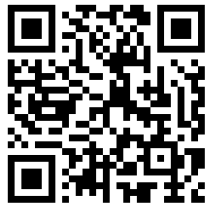

The proposed restriction would prevent parking along this section, while alternative parking remains available further along the road and in the village car park.
