Dear Sirs,

Please find attached and Invitation to Tender for the works to be carried out at The Almonry, Battle - Revision B.

As mentioned on the phone previously we have reduced the number of tenderers this has been sent to. The revised scheme is a reduced scheme excluding the originally intended extension. We have retained the repair works elements and also the addition of a Accessible WC and a ramp and lift externally.

We have attached an amended version of the Schedule of works which has simply struck through items no longer required and highlighted in green any items that need to be re-submitted. The overall format remains the same. We have also attached some additional information / sketches / briefings form the client to help to inform your tender return.

The tender documents have been uploaded to a Dropbox Folder

We request that the requirements set out within the instructions to tenderers contained within the tender documentation are followed and fully complied with as part of your tender submission.

We trust that we have provided you with sufficient information to allow you tender for the works and would appreciate any queries being raised at the earliest opportunity.
