

South Downs National Park - Installation Update

Issue Date: January 2023

For the latest information about installation of the replacement pipeline, please visit www.slpproject.co.uk or simply scan the QR code.

Current works

We have completed main installation in South Downs National Park and are currently doing the final phase of work to connect the installed sections of pipe. This is known as the tie-in work.

We are removing the construction compounds and reducing our footprint whilst we complete this work.

Reinstatement

Reinstatement in South Downs National Park will take place in the next available season. We want to return our working areas to their previous state as quickly as possible, however, it is important we do this in the conditions that are the most appropriate.

Reinstatement will take place on a like-for-like basis and vegetation is subject to five years of aftercare.

The plans and nature of reinstatement are based on agreements with the landowners and South Downs National Park Authority.

If you have any additional questions email us at info@slpproject.co.uk.

You can also keep up to date with the latest news by following us on **Facebook @SLPConstructionProject**, **Twitter@ConstructionSLP** or by signing up to our newsletter at slpproject.co.uk/signup to get regular updates.

Keeping 100 road tankers off the road every day*

Based on Esso's 2015 data for its existing pipeline

Key

- Advanced works / ecology mitigation
- ST** Strimming
- VC** Tree and Hedge Clearance
- Trenchless crossing including work area and access
- Open cut works rural / semi rural
- Open cut streetworks
- Compound in use
- Reinstatement

i
 We are now releasing a local, area specific timeline for installation. This gives an indication of when we expect to be working in each area. We'll let you know at least two months in advance of any work starting and provide further detail of expected duration. Since we are currently progressing detailed design, the timetable may be subject to some additional change as we finalise our plans and work to reduce overall disruption during construction. Please be assured that if our plans change, we'll keep you informed. Once the pipeline is buried, it will be a quiet neighbour.

Community charter

Plenty of notice

We'll let you know at least two months in advance of any work starting and if our plans change, we'll let you know.

Here to help

We'll let you know at least two months in advance of any work. Our local team will be available by phone or email to answer any questions you have.

Information directly to you

Our local area e-newsletter and alerts will let you know what's happening. Where we are working in streets or roads, we'll operate a dedicated text service to inform interested residents.

In your area

We'll make sure information about installation in your area is easy to find on our website, in a way that is easy for you to identify what's important to you. In some public parks, we'll hold pop up events to meet with those using the facilities and give out information about our installation plans.

Talking to landowners

All landowners affected by the installation will have a dedicated member of our lands team to contact to discuss our work.

Open and honest

We'll be clear about our works and any disruption that may take place.

Safe and secure

We'll keep our team safe, and we'll keep you safe. Our commitment to health and safety is at the heart of our business and we'll make sure your safety is not impacted by our work.

Well managed sites

Our sites will use fencing suitable to the location and we'll use things like wheel-washing on our vehicles to keep the surrounding roads clean.
