

As you may have seen in Fulmer Infant School car park, we now have a textile recycling bank.

The recycling bank has been supplied to make it easier for us all including the local community to recycle unwanted clothes, shoes and textiles. This will replace the Bags2school. The bins will be emptied regularly.

Benefits for our School

- Encourages the younger generation to recycle and reuse.
- Financial benefits for the school.
- Encourages children to understand the eco benefits of recycling their unwanted clothes, shoes and household linen.
- Educational leaflets provided informing pupils how the recycling scheme works and the benefit to their school.

What will be collected

- Adult and children clothing.
- Shoes and trainers.
- Handbags and belts.
- Sheets, curtains and towels.

How you can help

- All items must be clean, dry, wearable clothing and shoes paired.
- Please place your items in a supermarket type bag with the handles tied.
