

## Statement of Variances - Year ended 31 March 2025

### Instructions for completing this template:

1. Enter figures per the AGAR in the cells highlighted in light blue. This will automatically calculate a percentage change between years.
2. If the variance is within 15%, no explanation is required. However, if it is outside this threshold, the percentage difference will highlight in yellow and an explanation is required.
3. Explanations should be entered in each section, quantified to show the figures for each year. This will automatically calculate the remaining difference and the percentage unexplained.
4. Once a sufficient explanation has been given to bring the percentage within 15% between years, the percentage difference cell will highlight as 'green' in the 'adjusted' line.

**Please note that for fixed assets, regardless of the percentage change in the figure, an explanation is required for the movement.**
