

Mileaters Walk 30th April

We were very blessed with fine sunny weather for our walk from the delightful small village of Plush. There were 12 of us walking on a relatively short walk of 4.5 miles. There was, however, a lengthy climb at the beginning of the walk which got us up to a height of about 800 ft. The view was certainly worth the climb with vistas over Whatcombe Bottom and beyond. We also passed through a number of woodland areas with beautiful displays of bluebells and wild garlic.

We found a delightful spot to have our coffee break, sitting down on a banked area with views over the valley. We were also treated to sight of about six deer crossing one of the fields below.

After a steepish descent, we made our way back to the pub, where the very friendly and efficient landlord soon had our meals served. The food was excellent and the pub is to be commended for that.

Another successful and enjoyable Mileaters walk
