## FIRING

In the interests of safety, a player intending to fire during the course of a game or a roll-up shall clearly warn the players on the rink and the two adjoining rinks. Failure to do this will render the offender liable to any damage to a third party or to property, and may result in disciplinary action by the Executive Committee.

## TIMING BELL AND WALL CLOCK

The bell which regulates the start and finish of all games operates automatically from a digital timer which is housed in one of the cupboards.

The wall clock is a standalone clock and is reasonably accurate, but it operates quite independently of our bell and it should not be used to question the accuracy of our bell.
