Guidance on access to green spaces

Guidance on using green spaces and protecting yourself and others.

Published 27 March 2020

From:

[Department for Environment, Food & Rural Affairs](#), [Forestry Commission](#), [Environment Agency](#), and [Natural England](#)

People walking through green space.

The government's priority is to save lives and the best way to protect yourself and others from illness is to stay at home.

However, exercise is still important for people's physical and mental wellbeing, so the government has said people can leave their homes for exercise once a day.

Please use the following guidance in order to stay safe:

- stay local and use open spaces near to your home where possible – do not travel unnecessarily
- you should only go outside alone or with members of your own household
- keep at least 2 metres apart from anyone outside your household at all times
- gatherings of more than two in parks or other public spaces have been banned and the police will enforce this
- if you have a garden, make use of the space for exercise and fresh air
- take hygiene precautions when you are outside, and wash your hands as soon as you are back indoors

Please see the [latest government guidance on social distancing](#).

Please be aware that if you are experiencing symptoms of coronavirus illness (COVID-19) or at risk of severe illness if you catch coronavirus, then you must stay at home. See the [latest guidance from Public Health England](#).
