

9 – Agenda Item

Initial information and request for quote

I believe that this has been discussed, however wondered if a meeting maybe could be had to offer a detached project maybe 6/8 weeks at Lyneham? I have had an increasing number of senior young people attending youth club, which is great but as I explained with capacity, I can only run one night a week. However, I am concerned about the increasing number of ASB issues presenting in Lyneham and what this may develop into without further support.

Items for consideration by Council

1. Are the council content with the movement to support the Lyneham Young People via additional provision through a provider. Might be of interest to include your neighbourhood plan to identify all youth provision and current offered support.
2. Are the council content with detached work being the model from the Rise Trust (obviously you are also willing to identify other providers if wanted, or amend model of choice to suit the identified need of the above)
3. *Are the council content with the costings provided by Danielle for the provision (does it meet needs, aims, outcomes etc) (If you go with Rise Trust)*
4. How much are the council willing to contribute from Parish Funds, and if this does meet the required amount for the provider.
5. Are they content with identifying other funding streams (Area Board, Solar Farm Fund)
6. How would the Parish Council like the provider to advertise, evaluate and provide information regarding sessions to the Parish Council.

Council Engagement

A named person/s to engage with the Youth scheme – coffee mornings and monitor success, recommend changes
