

To all Wolverton Parishioners

From the Parish Council

Coronavirus (COVID-19) Support Network

To make it as easy as possible for Parishioners to ask for help and to offer support for our neighbours, and to ensure everybody is kept informed of any local initiatives, we've set up a WhatsApp messaging group: "Wolverton Neighbours". We particularly want to establish a strong support network to ensure the most vulnerable are not left isolated with no access to necessary services and support.

If you would like to join the Group using the WhatsApp App on your smart phone, please contact our Coronavirus Support Coordinator - Stuart Easterbrook with your **Mobile Number** and **Name** using either:

- Email using: sje@wolvertonpc.org.uk or;
- Text or call using 07880 783427

If you need help setting up WhatsApp which works off your mobile phone number, please give Stuart a call. It is very simple, and there are some links to guides on the Parish website Coronavirus page. Our website also has alternative contact information for the Council: www.wolvertonpc.org.uk

If you do not have access to WhatsApp or know of someone else who doesn't, please could you let us know the best way we can keep in touch. This could be by email, text, landline or letter.

We hope that if we can get as many people as possible using the WhatsApp group, we will have full coverage of the whole community, including the most vulnerable, either directly, or through neighbours or trusted friends.

With this approach, we can make each shout out for help, a call to action across our community.

Wolverton Parish Plan Questionnaire

You will by now have received our questionnaire and we really need your guidance to help us make decisions that impact and improve our community over the next 5 years.

We would be grateful if you could return the completed questionnaire to us as soon as possible, either by email to clerk@wolvertonpc.org.uk or by hand to one of our local Councillors: Paul Anthony at Meadow Farm or Sue Murphy at Oak Trees.

We appreciate that this will understandably not be at the top of your priority list, but over the next few weeks you may be looking for distractions, and we really do value your views. The strength of our community is likely to be as critical as it has ever been over the coming months.
