19/10/2021	25 Intersection of Public Footpaths 0236/22/1 and 236/23/1on Eastern Boundary of Fields behind Northlands.	Post requires replacement of Field gate on Footpath 0236/23/1		New Report	
21/10/2021	26 B5025 Dorrington Lane and Watery Lane Crossroads	At Dornington lane end where the 5026 leads to Irelands Cross, the constant flooding has still not been addressed and this morning, where most other flood prone sites are clear of water, this junction has a pool 2/3rds of the way across the B Road and round the corner adjacent. Our understanding is that this constantly floods due to the water running down Dornington Lane out of the ditch and down onto the B5026. The drains are silted up and can't cope with all the water.		New Report - First reported to SC several months ago.	SR-174964- T9K7D9
21/10/2021	27 Severe Flooding on Bearstone Road	Bearstone Road flooding – issue is broken pipes – SC have visited site and instructed SC drainage works team to perform repairs – 3 month notice required for road closure - awaiting update.		New Report - First reported to SC several months ago. Update 10.12.21 - Shropshire Council advised that their contractor has attended site to deal with this, but couldn't do anything because of the flooding! They are to write again to adjacent landowners ref Ditch cleaning.	
21/10/2021	28 A525/A51 Junction, Audlem Side.	Badly deteriorated road surface, and erased stop line. Vehicles are encroaching into the A51 carriageway to gain visibility around parked cars in lay-by. The absence of the sop line is very dangerous since there is no guide to the driver to stop. Eroded road surface is danger for vehicles under heavy braking with flooded potholes and the risk of ice forming with the onset on writter.		New Report	
21/10/2021	30 Blocked foot way gulley on A525 adjacent to Woore Post Office	Drainage gulley at the back of the footpath is blocked, and or possibly the outfall drain. Water is discharging across the tootpath, and is causing a dangerous surface for pedestrians. This will be exacerbated by the onset of frostly weather causing ice formation with the associated hazards.		New Report - SC attended site on 12.11.21 and attempted to clear the blockage in the outfall drain. The operatives reported to Andy Morris in Woore Country Stores, they thought that the drain was collapsed as a result of excavation work carried out by ST to install a new mater meter, since there is new surfacing over the area of the drain. They have referred the matter back to the SC Drainage engineers for resolution.	'
26/10/2021	29 Inspection cover On Lamppost Ref:8146-2 lying on pavement, electrics exposed On Audlem Road	Lamppost Inspection cover lying on the pavement with exposed electrics on the Eastbound pavement of AS25 Audlem Road in Woore Village. This is a danger to the public, and requires Immediate attention.	28/10/2021	New Report - Repaired	SR-175453- Z1W3V4
28/10/2021	31 Streetlight - very bright light shining onto property	The streetlight outside the property referenced below has had the bulb-head replaced drily recently and since then, the light it significantly brighter than the others and is also now shining directly onto the property opposite (Eimbrust Lay, Woore, CW3 9RO). The light seems brighter than an average streetlight bub. It is causing an issue for the residents of that property. Please can it be addressed.	06.11.21	New Report.  The Lamp has been replaced with an LED Unit that does not sit within a cover. All SC Lamps are being replaced with LED Units as they fall. Issue to be taken up with SC by the Resident direct, since it is policy issue.	SR175833-B5S4I
12/11/2021	32 Street Lamp out on Westbound side of the A525 adjacent to Buckley Hall.	Street Lamp requires replacement		New Report
