

**Residents Survey “Post it” comments 18.11.2017 against Q4 questionnaire outcomes.
 “By 2030 please describe what type of place would you like Chelford to be”**

**The idea of a park for sitting areas also to take dogs for a walk.
 To retain the rural atmosphere of the village.**

**Need affordable rented social housing to enable young people to stay in the village.
 Agree with above
 Need for social housing, especially for the young of the village.**

**Note 40% don't want Chelford to change. This is disappointing as to thrive the village has to change.
 Comments about threats of “new people” is a bit Little Britain as new people is best hope we have for future.**
