## Details

Here we are again..... Sunday morning, odour since 5am. The sun is shining. Will I have opportunity to have the door open or garden? Doesn't look like it.// 2 complaints.

Sunday 7 March - filthy TT stink from very early morning stopping us doing anything outdoors including gardening.

vile smell on Sunday morning

Monday , stench permeating the house, had to close doors again.7.15 am - 2 complaints

6.06am the stench both in and outside my house is gut wrenching. THIS IS NOT SLURRY. 2 complaints

I have just travelled through Scaftworth on my way home from work.Marks out of 10 for odour tunnel tech ...20 out of10, I had to stop my vehicle because I was retching at the wheel. Do you find this acceptable. ?1 complaint

See attached odour complaint - Odour is 8 on scale of 1-10. Wind direction WSW.

Usually my husband who writes these complaints but I thought I would do it today as I have just been outside my back door& the smell is dreadful. So bad it made me go inside immediately. Windows need to be closed.

5:05pm outside his house - quite bad

1800 in village - Wind in westerly direction, time around 6pm and the odour as bad as it's ever been.

See attached odour complaint - Wind in Westerly direction, odour at 6pm, odour was as bad as ever.

Yesterday Monday 22./03/21 there was a very strong stench from Tunnel Tech at 7.00am in our garden. The wind was westerly so this pollution is to be expected. It was certainly Tunnel Tech and not anything that had been spread on the surrounding fields. Re

6.15am opened doors to strong odour, 8 out of 10! Cannot put a duration of time on it.

See attached regarding the odour from above. Left all windows and doors open, was blasted with the stench from above around 8.10am.

Tuesday 23 March - sickening TT stench this morning at 10am, and also stinking in the last several days on & off.

Today I noticed the odour at 9.00am and yet again the wind is westerly, only this time SW, which means the smell will be strongest in the middle of the village.

Disgusting stink from Tunnel Tech this morning. I've just been outside and the smell is repellent. If you want a grade it's 9 out of 10. That's two complaints.

stinking again at 12.15 when we came out for a walk. We hope the improvements didn't cost Tunnel Tech much as we'd want our money back.Come in BDC - this commissioning must be the longest in history.

I have to agree with everyone, the stink this afternoon was diabolical at 4.45pm & most of the afternoon, we could not sit out or do outdoor chores. This is disgusting.

The stink from Tunnel Tech has been wafting around the village all day. Not surprising as the wind is in our direction and that the work that has been carried out is not working.

I have wandered in the garden today at different times as it's been so nice and have smelt Tunnel Tec first in the morning and later in the afternoon.It is tedious having to complain every time but necessary.

4:40pm outside his house - quite bad

We've been outside working in the garden - TT smelling but could cope. But have now been driven inside as the stench is overwhelming. It might pass in 5 minutes, it might take hours - who knows.

3:20pm outside his house - quite bad

I've had to shut all the windows very quickly as the stench from them is absolutely rancid!! We seem to be getting the stink regularly again and it's really bad

I agree with X, the stench at 3.30pm was horrific & still stinking at 4.05pm. Again, this is disgusting having to live like this, & unhealthy to say the least.

The smell today has been particularly bad and as others have said this is becoming a regular occurrence again

The smell today has been particularly bad and as others have said this is becoming a regular occurrence again
