2109/65 Cornwall Council

The following comments on Planning, Devolution & Waste/Recycling will be submitted.

Planning - Local knowledge asked for but nothing happens when we do.

Enforcement of planning conditions – does it happen? There should be seamless streamlined accountability between planning and building control to ensure sign-off of completed developments. Pre-Apps – We don't want pre-apps to dilute value of full applications. What is the legal status of pre applications and how can we input local knowledge if not consulted?

Devolution of services – not relevant to us.

Waste/Recycling – Please don't change! Weekly collections please!

2109/66 Grass Cutting Contract

It was RESOLVED to draw up a map of the areas to be covered by the contract. The contract would also be amended to specifically include strimming around the edges of the grass and planted areas. The contract would be for one calendar year and tenders would be invited.
