## **League Secretary's Report 2021-2022**

### **Inter-Club League**

Inter-Club Champions this year were Plymouth-A with Torbay-A runners up.

Honiton were Champions of Division-2.

Due to health issues preventing all matches being played (including the withdrawal of one Club from Division-2 late in the season), it was necessary to institute the “points won per match played” method of arriving at league positions. However, the vast majority of the fixture programme was completed, and final league positions were not unduly affected.

With initial uncertainties still prevalent due to Covid, dress code continued to be greys. In any event, this was seen to be largely successful, and will be continued now as the norm throughout the 2022-2023 season.

### **Over-60s League**

Group Champions this year were Plymouth-A (Group-A) and Exonia (Group-B).

The play-offs resulted in Plymouth-A and Kingsley reaching the Final – Plymouth-A won, and became the 2021-2022 Champions.

Again, due to health issues preventing all matches being played (including the withdrawal of one Club from Group-B late in the season), it was necessary to institute the “points won per match played” method of arriving at league positions. Again, the vast majority of the fixture programme was completed, and this resulted in no significant impact on the resultant divisional placings.

Dress code continued to be greys, with the exception of the Final, which was played as per tradition in whites. Again, this was seen to be largely successful, and again be continued now as the norm for the 2022-2023 season.
