

Appendix 2

Bardon Mill Parish Council

DRAFT Verge Cutting Protocol (version 2)

1. First cut in June as state of growth and farm work dictate.
2. As far as possible, swathe width no wider than 1.0 metre from edge of road (except at road junctions for visibility splays).
3. No cutting until late summer of the “protected verges” on Haresby Road (whether signs are up or not).
4. If there is a second cut (mid-August to September), swathe can be wider than 1 metre and the protected verges on Haresby road should be cut (but try to avoid scalping the banks on the narrow bit).
