

Staplehurst Parish Council

PARISH COUNCILLOR MICK CHAPMAN

WRITTEN STATEMENT

I have lived in Staplehurst since 1968. I am married with no children and have worked for Kent Police in one capacity or another since 1980.

I was very proud to be elected as a Parish councillor and I have become involved in the planning committee, library group, Jubilee field group and firework display committee. I am also currently the police liaison officer for the council. It is important to me that despite these commitments' residents should feel able to speak to me about any matters relevant to the village.

My intention is to be an active member and to assist the chairman in his vision to improve the general village infrastructure and in particular matters relating to retail, sporting and future development issues.

I will do all I can to help make Staplehurst a safe, happy and inclusive community.
