The following email from The Flood Risk Working Group Chairman had been received and sent to the resident who is experiencing the flooding problems:

"During my quarterly meeting with Thames Water your village was on the agenda. You may have the following information already but just in case you do not.

The current situation is that having carried out CCTV surveys TW have found no evidence of ground water penetration of their network, which is good news.

A ground water impacted survey management plan has been raised and this will involve the placement of flow meters for a period of 9 to 12 months before findings are established.

As I have been learning, on the job as it were, these flood related issues can be very complex and the only way to resolve most of them is by the painfully slow process of eliminating each potential cause at a time. I will keep you informed of any new information that I receive"

It was noted that the resident had commissioned his own survey.

19 JUBILEE PLANTATION

Any work will be carried out when the area is drier.

21.4 Parking at the Shop

Chair reported that a parent, dropping her child off at the school, had parked outside the shop and had become fairly aggressive towards the shop owner as one of the disabled car spaces had been used by her (the shop owner). As a consequence, the disabled spaces have now been removed and signs for Customer Parking Only erected. It was noted that parents dropping off children should not be using the shop car park, however, it was noted that the parent previously mentioned is still doing so. Although there was some concern at the aggressive nature of the parent, it was noted that this is not a Parish Council issue.

22 DATE OF NEXT MEETING

The next meeting will be held at 8pm on Tuesday 9 April 2024 in the committee room of Marsh Gibbon Village Hall.
