The Kingston Maurward university centre and rural business hub

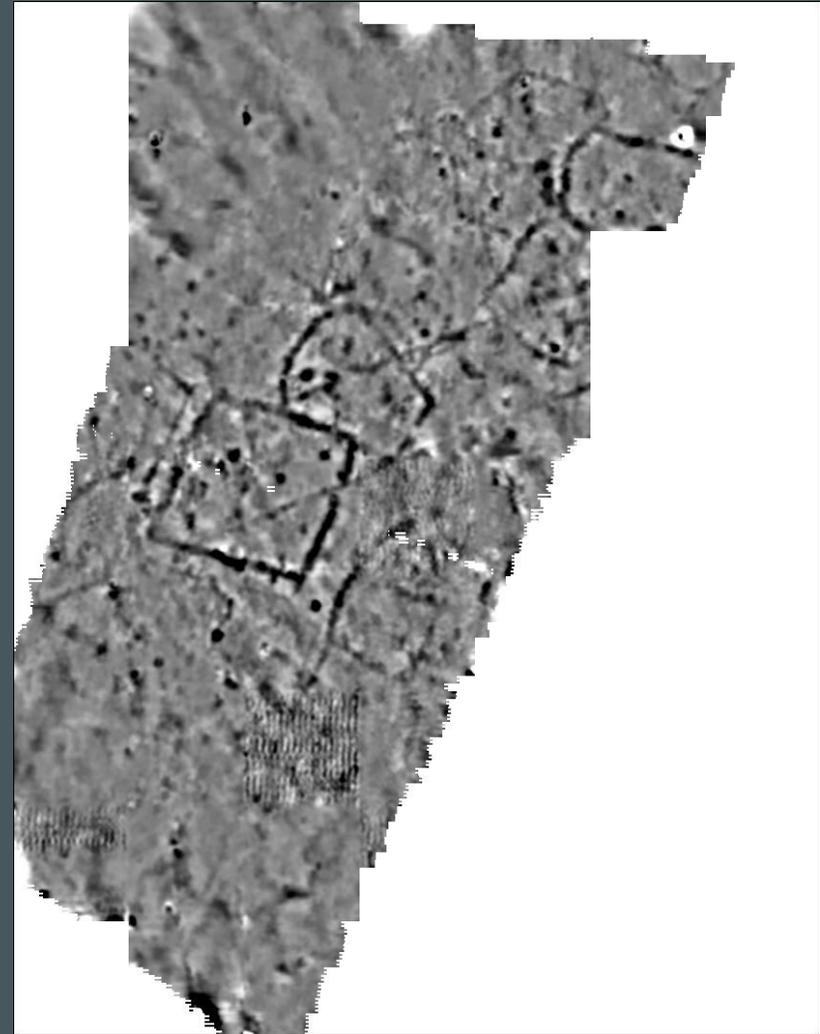

- £3.5M Dorset LEP investment

Game-changing site at the heart of the rural authority.

University Centre Status application planned (only one in Dorset College)

HE Development and Innovation Partnerships

- Leverage £3.5M investment – creates focal point and catalyses engagement
- Rural resilience – business and alignment to sector needs alongside shifts in LEP role/Chambers of Commerce
- Community regeneration opportunity
- ‘School of Rural and Land Management’
- Heritage as vector for transformation and regeneration as RAU retrenches
- Bottom up action meets top down analysis –
 - LNRS
 - ELMS
 - Catchment and natural capital monetisation

Intrepid Minds

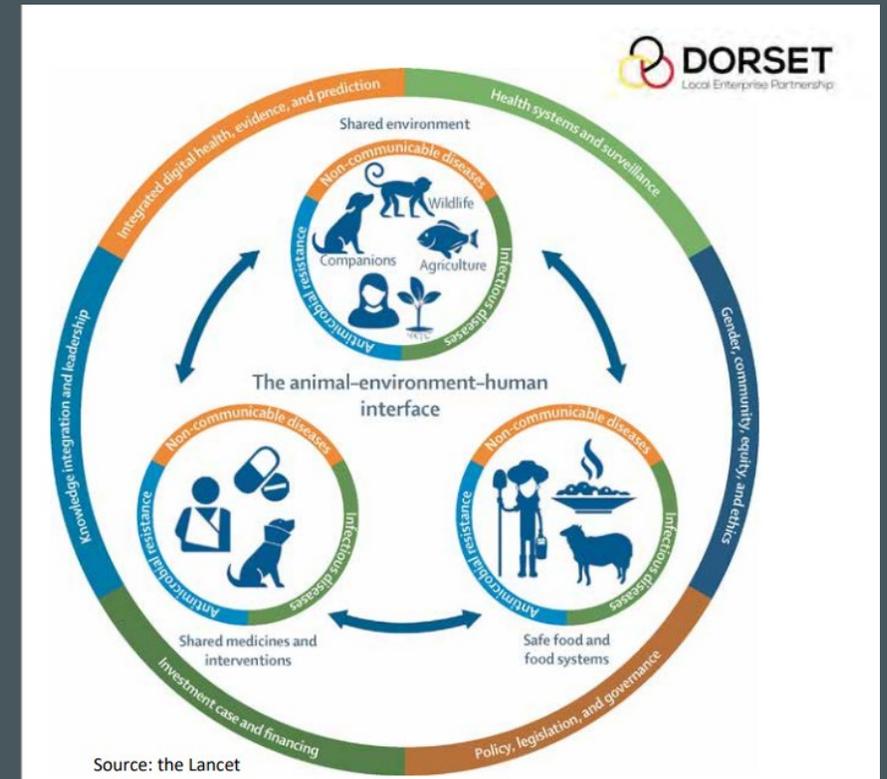

- Relocating to Winfrith Enterprise Zone (15 mins away)
- LEP and LA facilitation just like Draper (££ funding)
- Agri-tech developments aligned with LEP Skills Plan
- Need land and site to test-to-market alongside student activity

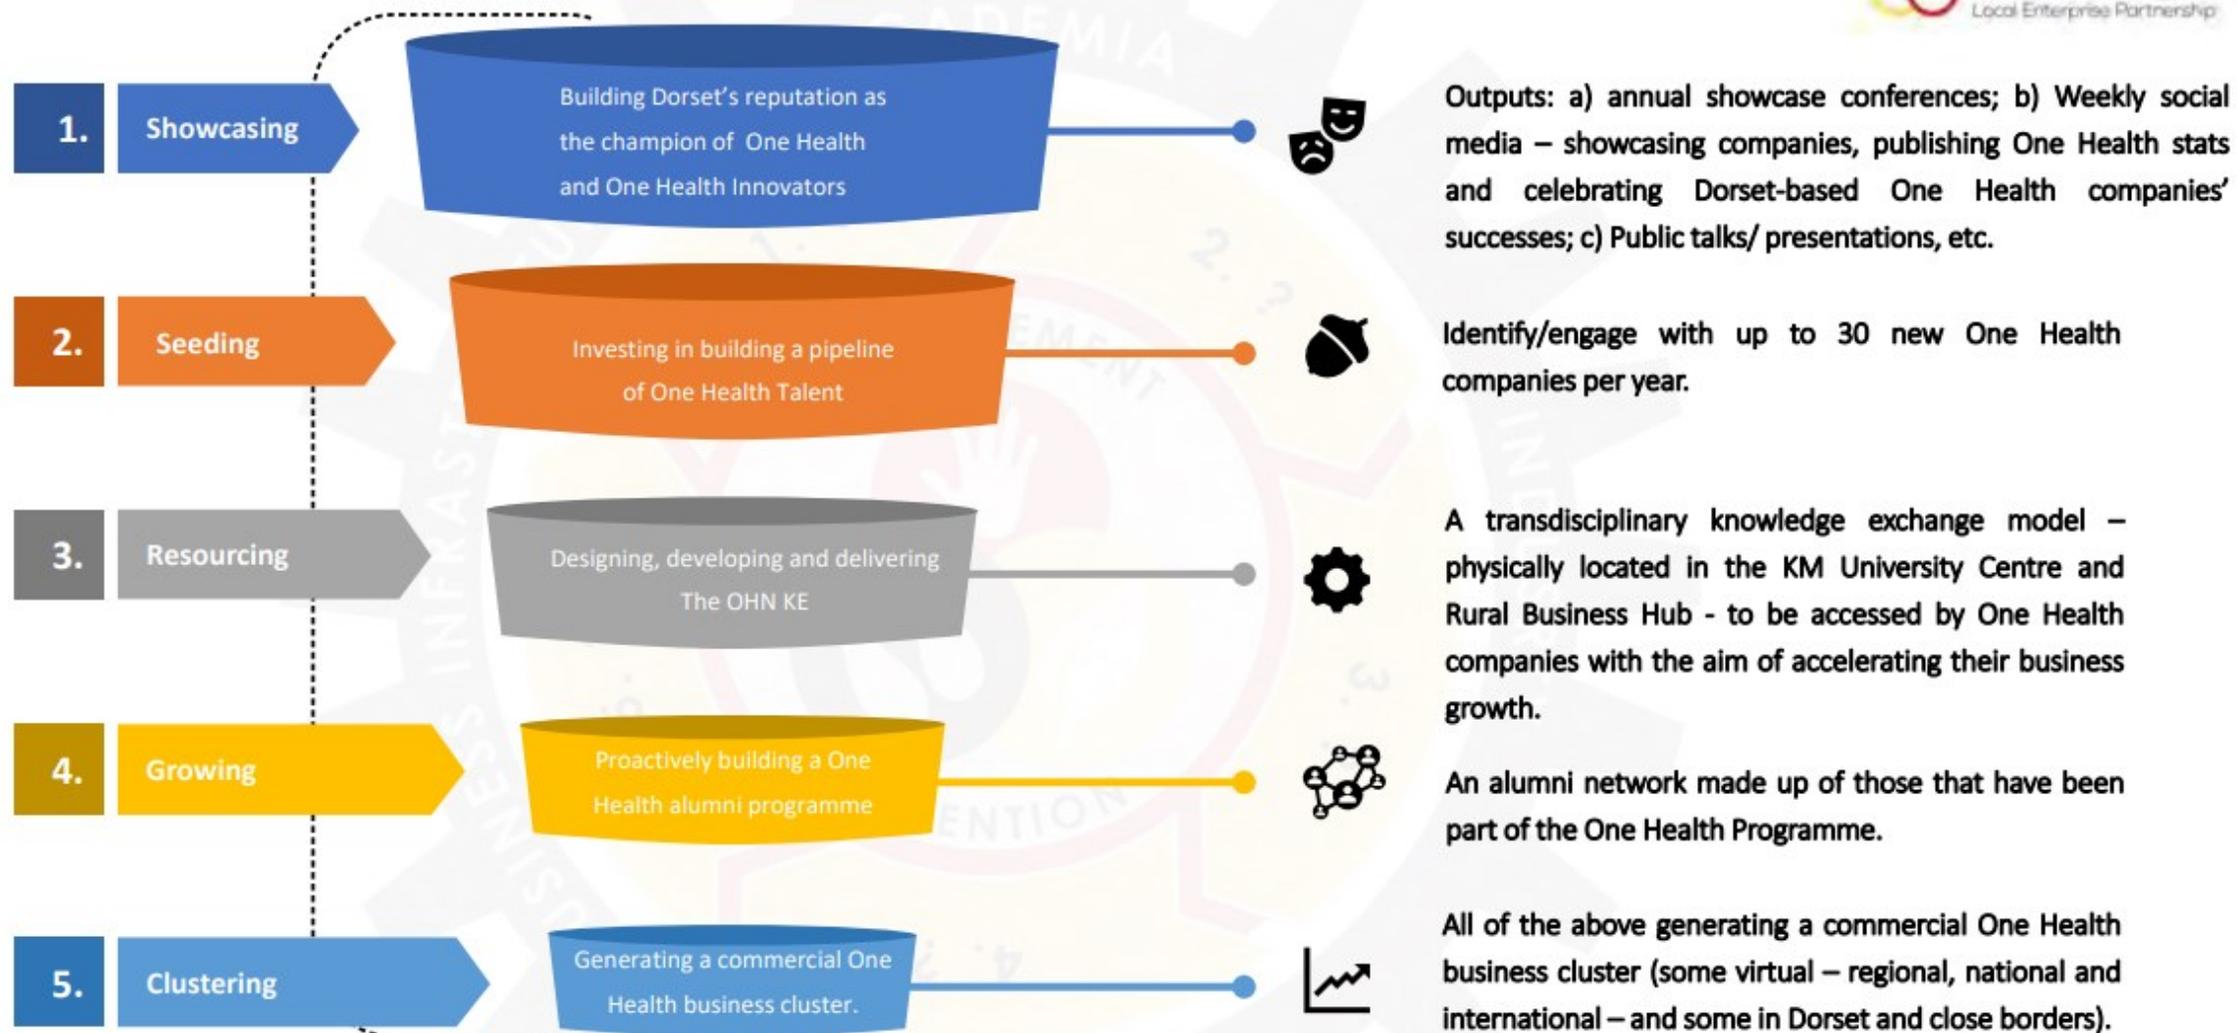

One Health

'One Health' is an approach to design and implement programmes and research in which multiple sectors communicate and work together to achieve better public health outcomes, recognising the interconnectedness of human, animal, and environmental health in achieving this. *Since 2019 we've hosted the national One Health Conference.*

KMC is already a national livestock training site for the RVC, a potential research station for University of Southampton, and is the designated site for Dorset's One Health Nucleus.

AMBITION: ONE HEALTH PROGRAMME 2022-2040

2040: £100M+ generated from OH businesses in Dorset and close borders and a new local, regional, nation and international One Health business cluster/eco-system generating circa £12 billion in exports annually.

Dorset has a fantastic environment, but it is fragile and (like much of the UK) denuded.

Symbiotic relationships are there for a reason – strength comes from collaboration.

The opportunity to increase both natural recovery alongside human benefit is there – it requires the use of the correct moral compass, supported by the correct investments of time, energy and will.
