

## **CHAIRMANS REPORT 2015 - 2016**

Another quiet year without any contentious planning applications . We have spent a lot of time on the School to Church path which has now been completed through the wood . We were lucky to be able to secure grants from our Borough Councillors as well as our County Councillor . We are now looking to upgrade the existing track through the wood as far as the Church car park.

The joint housing scheme with Throwley moves slowly on , we now have plans that have gone to SBC for comments before a formal application takes place

The business has been so quiet that we have not meetings every month. I would like to thank other members of the Council for attending various meetings and courses .

On a wider note we must congratulate Councillor Scutt for his excellent Open Farm Sunday and meeting with our MP to discuss farming matters .

We looked at the East London Crossing which on the face of it should not effect us . But there is a potential for more HGVs on the A2/M2 , J7 at Brenley is already bad and could affect our Parishioners. Again I am pleased to say our MP is on our side pointing out to Government that the new crossing will need added infrastructure
